

Machining | Thermal Spraying | Cold Spraying

CNC Turning Centre – Complete Manufacturing for our Customers

obz innovation gmbh continues investing in latest technologies!
A state-of-the-art CNC-vertical-turning centre with driven tools enables a higher degree of vertical integration from November on.
Workpieces - diameter up to 1.000 mm and a length up to 870 mm - are manufactured mechanically with highest precision.

Your additional advantages:

- Shorter production times
- Higher flexibility concerning delivery dates and changes of delivery dates
- Complete manufacturing of workpieces with thermal sprayed coatings
- Price reductions, among others by less external labour and raw material store
